

ALICE, ATLAS, CMS e LHCb

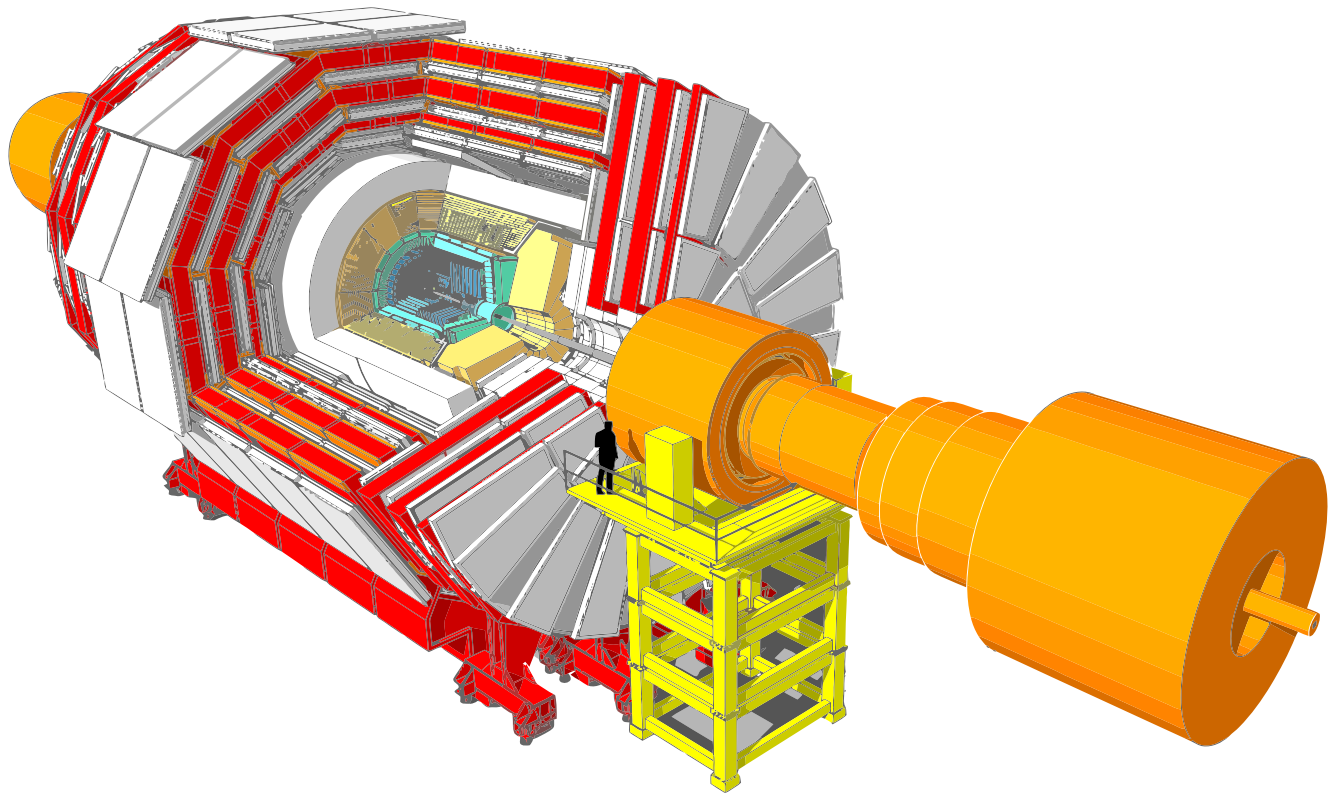

oscar nominees do CERN

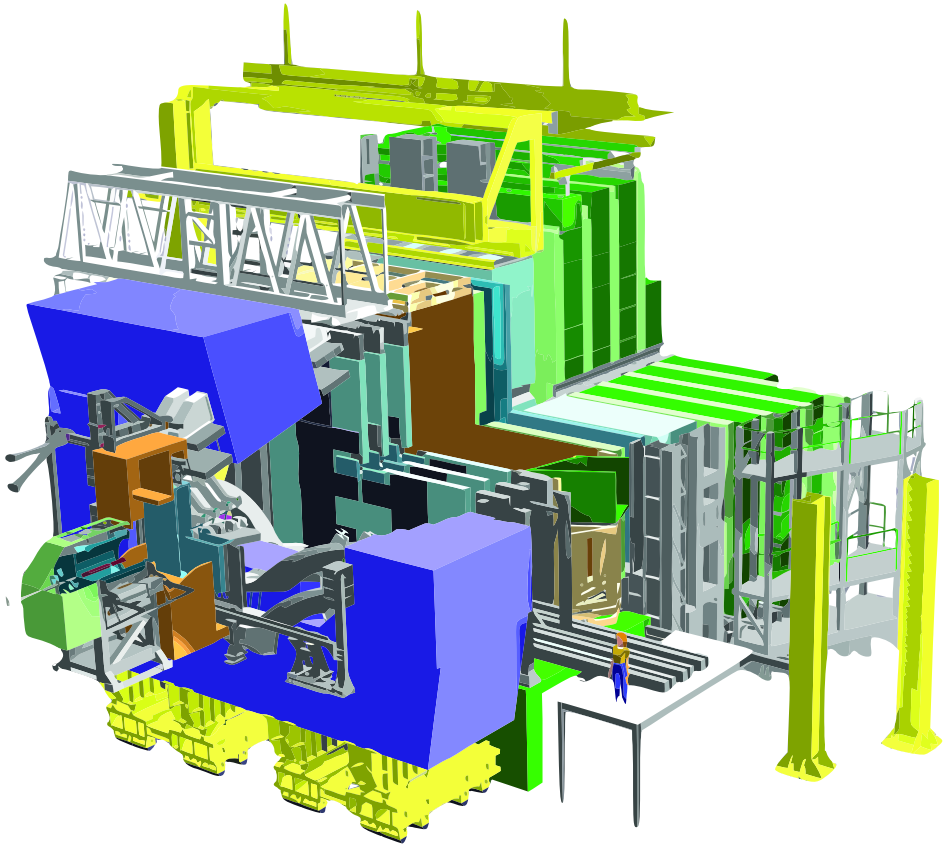

ATLAS

ALICE

CMS

LHCb

Atoparon Bosón de Higgs

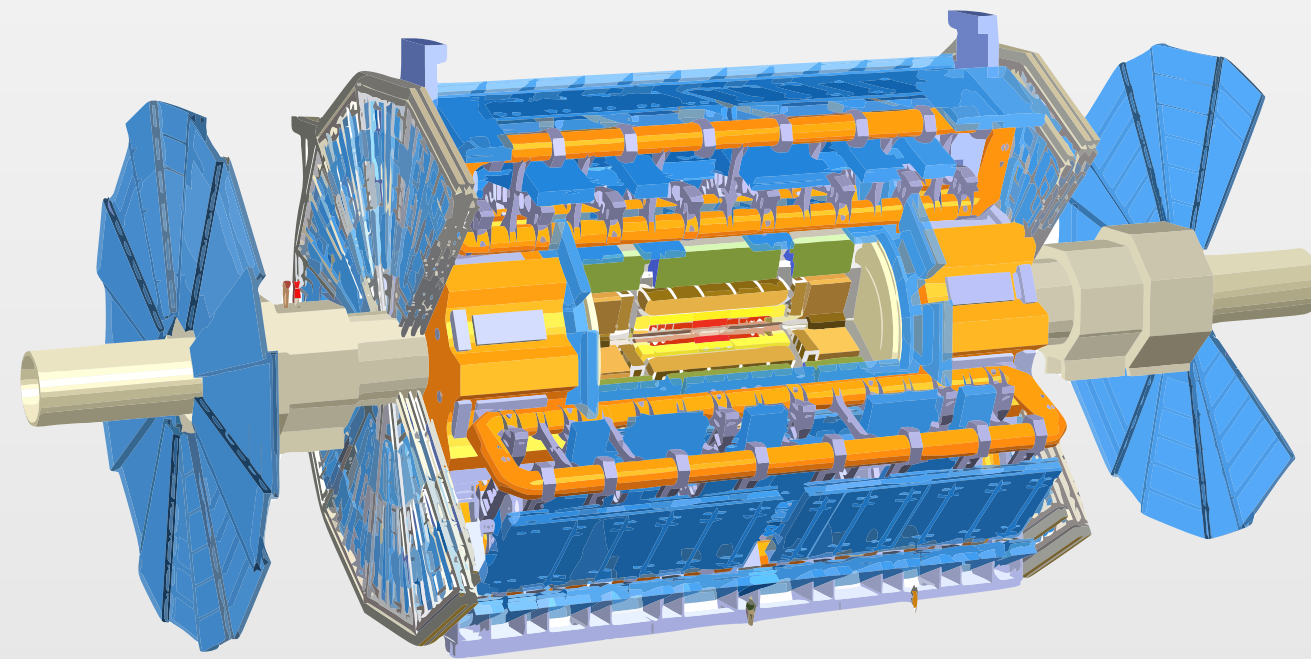

Equilibrio de materia no universo

Qué pasó cuando se creó el Universo?

ALICE, ATLAS, CMS e LHCb

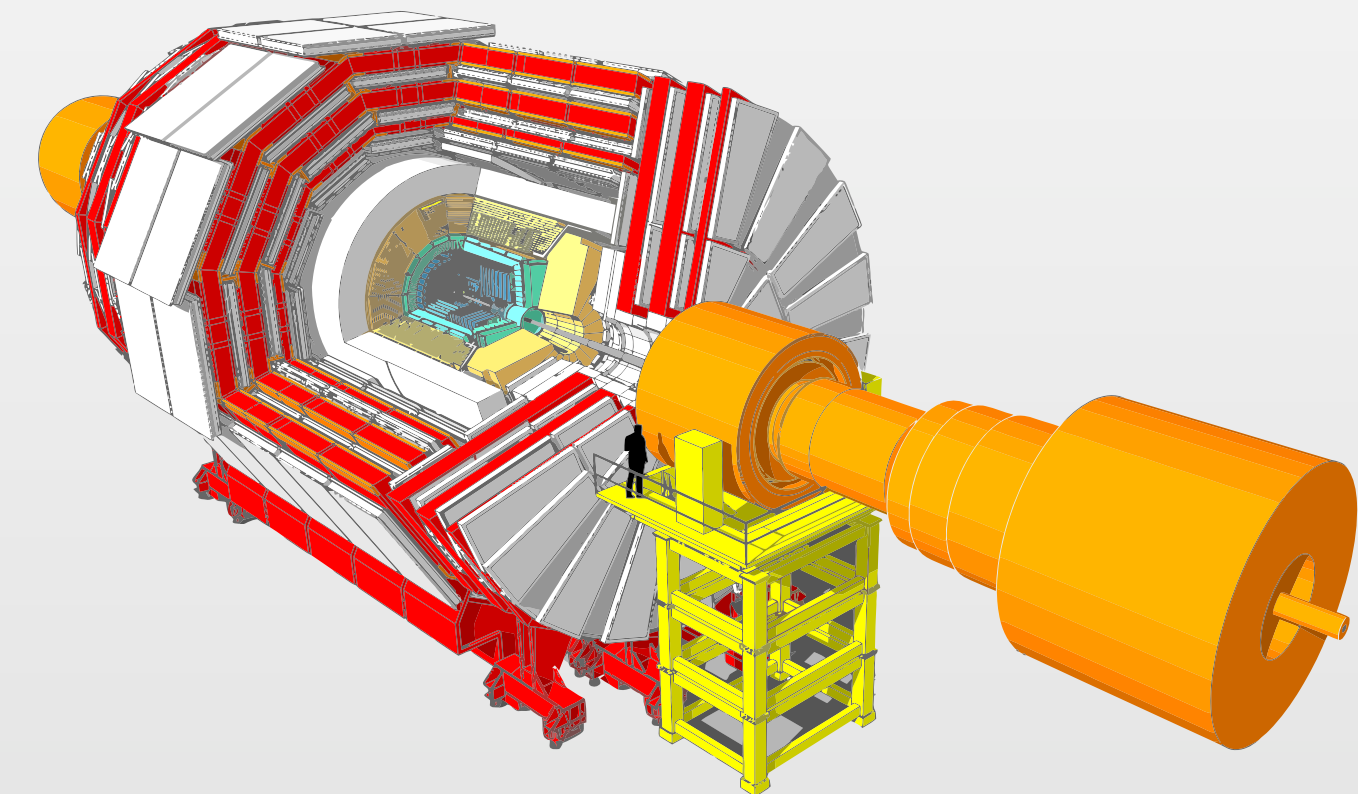

os catro maiores detectores do CERN

ATLAS

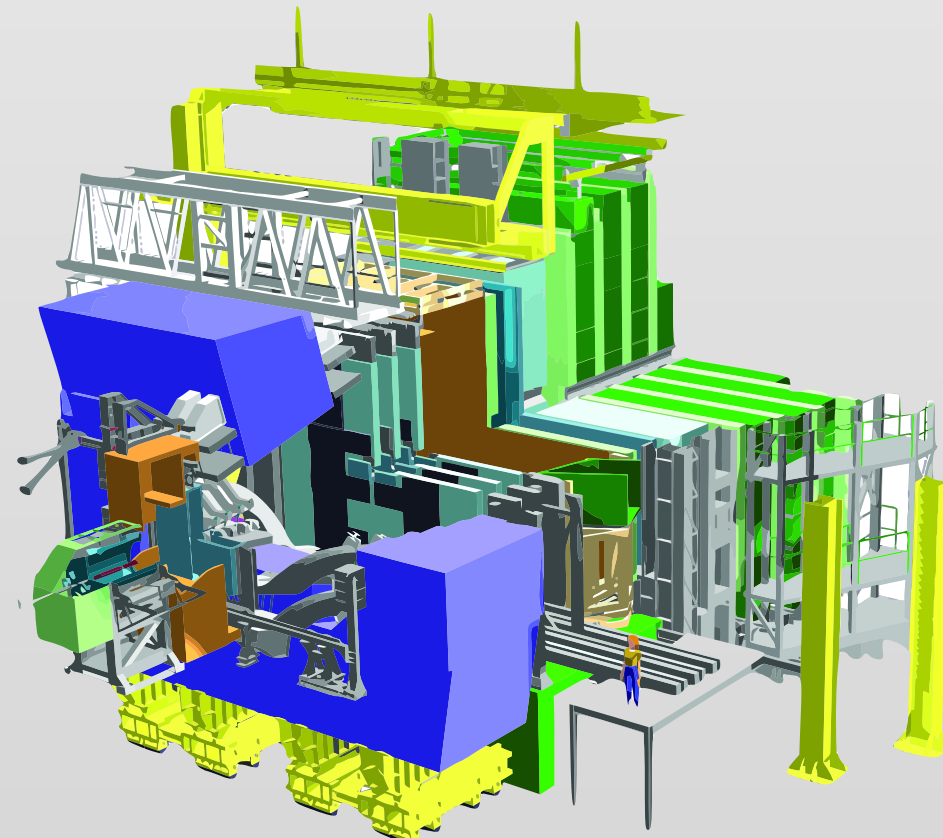

Atoparon o Bosón de Higgs

CMS

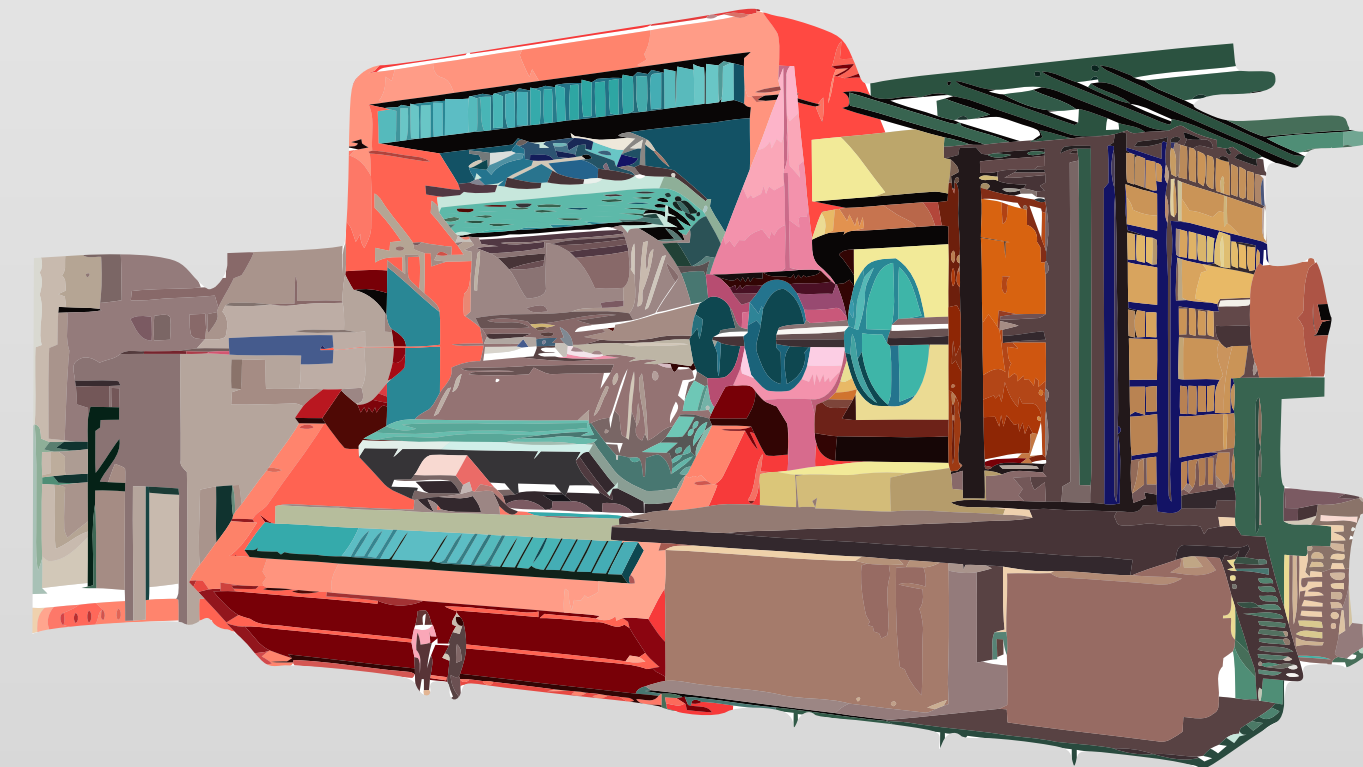

LHCb

Equilibrio de materia no Universo

ALICE

Qué pasou cando se creou o Universo?

**O maior dos detectores é ATLAS,
con 25 m de alto e 45 de longo**
